

Enrique Gangaram

Curriculum Vitae (CV)

What job i'm looking for? My positive points

I am writing this letter to apply for the position as a IT Support Technician or any work that's in line with my current field of work.

As a IT Support Technician and a IT Consultant I am extremely familiar and experienced with the job and have had the opportunity to practice my profession for 2 years. Moreover, I was glad to have found the job vacancy for your company as I have followed your company profile, progress and growth. I would very much appreciate it if you would give me the opportunity to work in the company as I believe that I would make a valuable asset.

I work for Evolution Technology Services as a IT Support technician and a IT consultant. In my current job, I am the leader of my team and I was promoted to be the team leader because I have good listening skills and I'm driven to get work done in its totality. I do both internal and external support, and due to this I am able to work under pressure and still get work done.

I believe that my strong educational background and extensive experience in the field makes me an appropriate candidate for the position.

As you can see in the resume attached to the letter, I have the necessary knowledge and skills for this position.

If you need additional information or documents, feel free to call me on my personal number:071 915 0099 , or Send me an email on enriquegangaram01@gmail.com . I look forward to personally discussing my application with you.

Sincerely,

Enrique Gangaram
