Curriculum Vitae (CV)

What job i'm looking for? My positive points

I am doing my final year in B.com(Information System) in University of Fort Hare. I don't have a professional experience but I worked before for someone who is selling food in the taxi rank, and I worked there for the whole year, the reason is, I didn't want to do nothing for the whole year just because I have a gap year. I am very punctual, I work very hard for something I believe in and do not quit unless circumstances force me to. The goal is to be independent life, not rely on parents. I love challenges all though they overwhelm me sometimes. I have a positive attitude towards to my career and life. I sometime can't say no when one ask a help. My short term goal is to work in a company when I can grow and then long-term goal is to have a respectable position in that company but still be a very friendly person to the workers.
