Curriculum Vitae (CV)

What job i'm looking for? My positive points

I am looking for a job that I can be able to work using my own hands, for example, mining sector, whereby I'll be using my hands and my mind to finish up my work. I am a very passionate person, so when it comes to work, I become really determined. Construction is also a second opinion, as they also deal with innovating and structuring the work. Even though I don't have any experience about construction sides, I am willing to work any shifts so that my employer can see my potential in what I want to do. I always like to communicate with people, especially when I find myself not understanding enough. I am willing to do anything that the employer will tell me to do and I am a team worker. I am willing to lift up very heavy loads even though I'm a lady, I'm basically not lazy. When I am told to go elsewhere, that's exactly what I'm willing to do.
