Curriculum Vitae (CV)

What job i'm looking for? My positive points

I am looking forward to upgrade my skill in mechanical engineering job...i was working for engineering company since 2010 till 2020 march 12...I used to work with CNC and Milling machines,and i was also grinding,tool setter,material controler,assembling,polishing and i was also work as a quality controler...my positive point is i can do all this job i've mentioned without being followed about how to do my job probably....my negative point i'm not qualify to do this job.but what proofs that i'm looking forward in manufacturing..i try all my best to study even though the company i was working for didn't want me to study but i came up with my N1 certificate in mechanical engineering subjects....and i promise if i can get a chance i can prove my self to you...that i'm a young talented guy.
