Curriculum Vitae (CV)

What job i'm looking for? My positive points

I'm looking for General worker position.

I'm well with my hands and do proper research before doing a job. Nothing i don't know is not impossible to learn. I never worked in or near any mine field or any position near or in a mine field. I am fit to work in any environment. Hard work and enthusiasm is key for me.

I am actually an electrical engineering(student) but couldn't finish my studies due to not having funding towards the field.

Except for electrical, i have an interest in mechanical engineering (part time if there is problems) also.

Like i said i am a thinker before being a doer.
