What job i'm looking for? My positive points

Dear hiring manager

Ever since I was young I have always shared a passion for helping other no matter their age group of ethic background, this keen interest to help other fell in line with a nursing internship I carried out in development pathways for health research unit-wits university (DPHRU) which practice which cemented my desire to become a student nurse

I'm passionate about nursing industry and have a robust clinical experience backing my abilities. during my clinical training I worked a wide range of patients who remarked fondly about their ease and comfort under my care my primary focus was to help patients recover as quickly and timely as possible while maintaining their support at all times

I pride myself in my ability to connect with patients in a fashion that makes them feel comfortable and ease in the practice not only I'm keen at patient care and service but I also work very well in a team and I'm efficient in taking instructions from and following orders received by practitioner and physicians with the confidence that my skills, qualifications and experience will prove to be invaluable in your practice as a new health promotion officer (CHW3) or Care giver

Thank you for your time and consideration and I look forward to learning more about your practices .should you require any clarification, please do not hesitate to get in Touch

Sincerely
