## What job i'm looking for? My positive points

I'm definitely looking for a job where i can grow professional, development is something that's really important to me since i hope to take an managerial responsibilities in the future.

To sum it up, I'd love a position where i can use my skills to make an impact that i can see with my own eyes. Of course, the position is only part of the equation. Being at the company where i can grow and work toward something i care about matters, too.
