Curriculum Vitae (CV)

What job i'm looking for? My positive points

As a graduate I would like to be in space where I can be exposed to endless possibilities, where I can purposefully contribute towards the organisational economical and sustainable development. In my training at the FDT I have gained skills in problem solving and mechanical fitting which i would like to explore further. With these set of skills, I believe that I can add value in any space given the opportunity. My long-term goal is to lead an organization that looks to empower young and old people by giving back to the communities whilst also striving for economical and sustainable development.
