

Kagiso Brian Sedumedi

Curriculum Vitae (CV)

What job i'm looking for? My positive points

I am a diligent and adaptive individual who is a team player and I can work individually as well. I can communicate effectively and have adequate knowledge and understanding in the field of Rock Engineering which I have acquired from the years I have been in the Mining industry. The list below outlines the qualities and skills that I have:

- I can Monitor and assess the installation quality and quantity of various support unit to ensure that they met the required mine standard.
- I can assess the ground conditions using various rock classifications such as Q-rating system.
- I always ensure that I coach the mining crew on the importance of adhering to support and why we need to support the workings in order to ensure that we work under safe conditions.
- I am very analytical and I can manage to compile data that is essential for drafting code of practices that can combat rockburst and fall of ground.

I believe the knowledge and skills that I am in possession of makes a suitable candidate for this opportunity and if you wish to discuss the positive attribute that I have further, i am available for an interview.
