Curriculum Vitae (CV)

## What job i'm looking for? My positive points

I am writing to express my interest in Internship or Graduate programs available . I am currently a post graduate student at the University of Free State concentrating in BSc Honours in Geohydrology . I have completed my Undergraduate program in Applied Geology at University of Western Cape . During my first year in University I completed Graduate Development programme which helps in getting skills like career planning and development, personal management and wellness , and Emotional intelligence. My goal upon graduation next summer is to secure a fellowship in a Mining Sector. I believe that a summer internship/vacancy at this company will be invaluable in helping me develop a deeper understanding of the complex dynamics that contribute towards mining in South Africa . Prior to enrolling in UWC, I worked for the first semester as a tutor that gave me an opportunity to be able to work as a team and also patients of understanding working with people. Working as a Parker at spar gave me alot of insight and dynamics of business not only that but knowing how to manage the business. I am eager to apply the lessons I've learned during my varsity years and learn more things during the graduate program which will give me an experience of a lifetime. I believe that the combination of my academic and professional experiences has provided me with the organizational, interpersonal and analytical skills that will enable me to make a significant contribution towards the mining company.

Preferred occupation

Miners  
Mining jobs

Jobs for students  
Student jobs
