

Sifiso Paul Mvelase

Curriculum Vitae (CV)

What job i'm looking for? My positive points

I am a very hard working person, looking for a possible driving job. I've been working for 3 different companies throughout my carrer one of which is a non-govermental organisation(NGO).

I am a very effective leader hence I've been a team leader since the day I started working in industrial areas, I am a machine operator and have been for the past 15 years. I have a very good working relationship with authority and coleagues, my references will prove that.

I can work comfortably under any circumstances or pressuer that Im in. I always get the job or task done before I call it a day, I go beyond the call of duty and have no problem trying to solve the problems I come across before consulting the recommended personel, this way of working has taught me a lot of things about indusrtial machinery. Im also in a possession of a forklift operating certificate and license which is still valid and will expire in February of 2023.

Hiring a man of my nature will bring a lot of value in your company and a positive promise in its future as I am willing to learn more, if the company offers learning opportunities for its employees in ordre to improve its stature, I would also love to be a part of that.

In closing, they say "actions speak louder than words" given a chance to work in this company,I guarantee to bring bring this phase to life to prove all the words I mentioned above.
