Curriculum Vitae (CV)

What job i'm looking for? My positive points

I'm looking for jobs that deals with computer skills, networking and software designing. I'm still in university and left with 5 modules, meaning I don't have any skills except university level and so I will need to be trained for those particular jobs. I'm a very good team player, and good at communication and I believe I can bring good changes to your company. Thank you.
