Curriculum Vitae (CV)

What job i'm looking for? My positive points

I am looking for an electrical job as I have done electrical engineering at Northlink College. I did electrical up to N6. I would like to gain electrical experience as I like electrical work. I am a well-organised person who is willing to learn and explore new things. I have never been exposed to electrical work practically and I would like to develop one. One day I would like Transnet to hire me and develop myself more. I like learning and teaching people what I know. I have applied so many times by Transnet but I never got any chance to be accepted. Thank you sir for your time.
