Curriculum Vitae (CV)

## What job i'm looking for? My positive points

I am looking for mechanical engineering graduate program I have balanced a rigorous course load and a number of extracurricular activities that have allowed me to enhance my skills relevant to this role. Specific to engineering, through my academic project design, I have developed abilities in 3-D design, an understanding of materials and have practiced different manufacturing technologies. For example, in my design project, I created mechanical drawings and designs in Solidworks of a device to remove small trees on unfarmed land. I have also developed the strong interpersonal and communication skills required to succeed as an engineering trainee. Throughout all my experiences, I have used my dedication to efficient and create problem solving and ability to prioritize and manage completing demands to positive ends.
