What job i'm looking for? My positive points

I'm looking for any kind of job and i am a hard-worker. I can be able to work as a team with my colleagues in order to achieve the same goal for the company. I can work under lot of pressure and work an extra mile. While i'm working i want to extend my skills by doing a short course while working in order to apply for other job positions within the company. I can multi-task in the absence of other employees to increase production. I'm currently doing BED (SFET) in UNISA and this is my final year. I have computer literacy skills, leadership skills and management skills.
