Curriculum Vitae (CV)

What job i'm looking for? My positive points

I am looking for a job that will help me grow in required skills in the engineering/construction industry. I am currently an excelling N2 student in Electrical Engineering. I acquired my matric in 2020 with an aggregate of 3 distinctions. I would like to believe that I am a hard worker, critical thinker and mostly a team player. I believe that when offered an opportunity to work and learn my best abilities and hidden talents will reveal themselves. I am distance learner in engineering due to insufficient funds so I basically teach myself Engineering and earn distinctions, I believe that shows the measures of my hardworking skills.
