Curriculum Vitae (CV)

What job i'm looking for? My positive points

I am looking for a career opportunity as opposed to just employment. In my search for stability and job security I have been forced to expand my experience and preferences of late, but can now settle into a career as allowed by my experience, skill set and qualifications.

I am proficient in a diverse set of skills including Management, Chemical Operations, Maintenance, Computer Hardware, IT (MS Windows 7 - 10 and MS Office), Stock Control, Safety, Construction, Manufacturing, Credit Control, Sound Engineering and Logistics to name but a few.
