What job i'm looking for? My positive points

My experience is on production as a CNC carpet making machines(eg.Carpet slitting machine), rolling carpet machines then moving and locating all production to the warehouse or into the trucks using a scanner and a 4ton Forklift from January 2015 to July 2019. Then worked as Wire-draw Die-shop operator where I was making dies with small lathe machines and issue them to 12different wire drawing machines from December 2019 to October 2021. I always put the company interets and goals as a priority and also promote working as among workers.
