

Nompumelelo Portia Ndwandwe

Curriculum Vitae (CV)

What job i'm looking for? My positive points

As a graduand at SMU during my weekly laboratory work I had the opportunity to learn skills, such as problem-solving skills, basic computer skills and team-work skills and during the months I was an employee at Wimpy, I also acquired communication and time-management skills through my daily interaction with customers and my colleagues. Apart from my experience I have also taken short courses for data entry and proofreading/editing. I can apply the same skills to excel in both practical and written work.

I am confident that with my dedication and skills I will be able to help the organization grow and prosper even within tight deadlines. If I were to work at this organization I would enjoy expanding my skills and experiences too.

I am looking forward to learn about your company and develop my skills further.

Thank you for your time and opportunity.

I look forward to hearing from you soon.
