Curriculum Vitae (CV)

What job i'm looking for? My positive points

I worked at an open pit mine for 3 years as a plant operator, so I have knowledge working with convoy belts, crushers. Scrubbing and screening of material. Worked a little at the cleaning of water plant and also at the DMS (Danse medium separation) plant. After losing the job I went to school to do a high certificate in information system engineering where I got the knowledge of computer literacy in a more advanced way. I have an N3 certificate in electrical engineering and lastly I know a little about safety because I didn't a SAMTRAC CERTIFICATE, so for me anything that get me a job in all the skills I've mentioned I would be grateful.
