Curriculum Vitae (CV)

What job i'm looking for? My positive points

I am looking for any job where I can learn experience. A driving job would really be great, I had a code 8 driving license since 2017, then I decided to upgrade it this year and do a code 10 drivers license. I would say I'm really a good driver, with good communication skills and computer literate. I have passed my matric and I have also studied electrical engineering. I am currently in possession of an N4 Electrical Engineering certificate.
