Curriculum Vitae (CV)

What job i'm looking for? My positive points

Ever since I was young working at mines has been my passion. This is because I was raised by a miner. I am very much determined when it comes to mining. I am currently a student now but I'm willing to give up school just to come and work for your company. My wish is to see your company growing even more higher as it is rated as one of the biggest mining company in South Africa. I am willing to wake up everyday and pursue my dream of becoming a miner and also my dream of taking this company to another level. I have completed my matric as I have indicated above that I am currently a student, I have obtained a bachelor's degree and now I am studying bachelor of art at University of Limpopo and I also have a certificate of computer literacy.
