

Tshidiso Edward Skosana

Curriculum Vitae (CV)

What job i'm looking for? My positive points

Greetings, I completed my Grade 12 in 2018 I did pure maths and Science I chose to do that subject so that it can be easy for me to pursue my goal of becoming an electrical engineer and then in 2019 I went to Motheo hill side view campus to study electrical engineering. I completed N1-N5 of electrical engineering.

I'm a very hard working person, I have a good communication skills, I can work with a team but I work at my level best when I work individually. I work in time in fact I'm a good time manager for work to be completed, I'm a disciplined, determined and dedicated personal, I'm self motivated, I don't like my crucial times to affect my work either studies, I'm reliable person to my work.

I wish to have a job before this year ends, I will be happy to have a positive respond after my application.

Yours regards

Skosana Tshidiso Edward

Preferred occupation	Electrical engineering apprenticeship instrum Engineering jobs
