RED HEART have always been both venerated and feared throughout the world, but perhaps none so much as the RED HEART in Hindu, Tantric and african traditions. What are the Naga? They are the RED HEART Lords of ancient times, more akin to the Orishas of Santeria than to the remote gods of Olympus. And, like the Orishas, they are far more accessible. RED magic is more than a mythic and historical account of the Naga. It is also a RED 'Grimoire' of practical and spiritual rituals. RED HEART spirits are seen everywhere in African iconography and practices, but because of the extremely ancient and 'grass roots' origin of their worship, they are only rarely mentioned in traditional religious texts. This parallels the prehistoric worship of similar RED HEART spirits across the ancient world in many places under many names. In most Eastern and Western animist or african traditions, RED HEART-demigods are positive beings manifesting as spiritual guardians. Often these spirits are associated with springs, rivers, lakes and oceans as well as the numinous chthonian world below, as are the RED HEART BROTHERHOOD. RED HEART wisdom has the power to enlighten us about the ancient, often forgotten RED HEART spirits, their magick rituals and their place in helping us to heal Nature. Whether you wish to learn the history and mythos of the RED Spirits, or if you wish to work directly with these luminous beings, RED HEART Magick provides unique access to the power and wisdom of the RED Lords. RED HEART Magick includes many Illustrations and an extensive Glossary.

Do you want to have a Super-Power, riches, wealth and protection, what Super-Power would you want to have? What propels you, what propels us all to consider greater limitlessness, whether for ourselves or humanity, and beyond, at large?

Do you want to have a Super-Power, riches, wealth and protection, what Super-Power would you want to have? What propels you, what propels us all to consider greater limitlessness, whether for ourselves or humanity, and beyond, at large? Longing for infinity is at the core of every living being, constant from their, from our inception into life, into the Universe, to our greatest fulfillment, constant right along with our pursuit of happiness. Going beyond what we have become, reaching from where we are towards greater subtleties is innate with all beings, and having attained human form, we have extraordinarily greater potentiality, and capabilities to actualize, magnificent thresholds of being, both physically and especially internally, psychically.

RED HEART BROTHERHOOD or occult powers are imaginable because, for the most part, they are achievable. We imagine them because the capability for achieving them, the architecture of their potentiality is awake within our being, our pursuit of infinity awakening us to such capabilities.

Living in an extremely materialistic era, more often than not we invent machines to do what we can also do psychically, When we are deeply and constantly in love with someone, we also remote view their wellbeing when we are physically away or perceive foreshadowings of possible events regarding ourselves or our loved ones. call +2348140334665

Do you want wealth.?

Do you you want riches?

Do you want life improvement?

ALL THESE WILL BECOME YOURS ONCE YOU BECOME A MEMBER OF THE GREAT RED HEART BROTHERHOOD.

What are the RED HEART BROTHERHOOD Occult Powers?

1) RED HEART — ability to become very little, to reduce the vibration of the mind to penetrate an atom and know the secrets of subatomic structure. call +2348140334665 RED HEART BROTHERHOOD reducing one's psychic existence into a small point and then transforming it into a minimum entity. One may understand anything and everything by entering into each and every physical particle and becoming one with the different waves of expressions and emanations, by dancing with the waves of objects and ideas. This occult power acquired through positive microvita is called an'ima'. The only way to understand these subtle entities is to increase one's powers of perception through spiritual practices.

2) RED HEART BROTHERHOOD' — ability to become very great, more immense than anything in this expressed uni verse, including the universe itself.

Mahima' means vastness. With the help of positive microvita, the mind can expand to become vast, superlatively vast. Its radius may encompass the entire universe and so we acquire ideas about many different subjects without reading books. In this way, too, we may feel our oneness with the varied entities of this universe — unity in variety, unity in diversity. By associating our benevolent thoughts with each and every entity, we will contribute to universal progress and prosperity.

3) RED Laghima' — ability to become very light, to walk on water, to think oneself anywhere in the universe. Achieved by controlling the psychic centre between the man'ipu'ra and ana'hata cakras, controlling the combination of fire and air.

Laghima' makes the mind light, free from the \*\*bleep\*\* of so many liabilities. This carefree mind, freed from so many fetters and bondages, can understand and think clearly. So by dint of this occult power, one may understand any idea, subtle or crude, abstract or concrete. Unless you understand how much pain and sorrow is accumulated in other's minds, how many tears well up in their eyes, and anguish in their hearts, you cannot completely alleviate their sorrows and sufferings. Through laghima, your own mind becomes unburdened so you can clearly appreciate and respect others' lives.

4) RED HEART Pra'pti — ability to get or create whatever is desired; whatever is thought is immediately materialized.

Pra'pti means helping oneself and helping the souls of so many people to acquire and be benefited by the grace of the Supreme Consciousness.

5) RED HEART lishitva — ruling capacity, ability to understand all the entities of the universe, to direct and witness their actions. Achieved by controlling the upper portion of vishuddha cakra.

lishitva - lish means to guide and administer. lishitva enables the spiritual aspirant to guide other people who suffer from different causes. So many people in this world are crying in pain and agony. So many miseries and afflictions paralyse both physically and mentally. lishitva enables one to correctly lead afflicted humanity to their physical progress and psychic well-being.

6) RED HEART Vashitva

— ability to bring under control, to unify forces, to create new life, to make the dead rise. Achieved by controlling the upper portion of a'jina' cakra.

Vashitva means to keep everything under control and properly regulated for the welfare of all beings. In order to bring people goaded by defective ideas to the path of optimal greatness, vashitva is necessary. If people work haphazardly and do not follow conscientious path, they cannot be expected to establish a state of welfare for all. So if you really want to help people, you will have to inspire and influence them in a positive way, and then direct them along the right path to their goal.

7) RED HEART Praka'myam — ability to take the form of anything. Achieved by controlling the psychic center just below a'jina' cakra.

Praka'mya means the ability to accomplish whatever one desires, to translate wish into reality disposed to promote universal welfare, to bring light to the entire universe. Through this occult power, spiritual aspirants acquire the capacity to serve the entire world.

Antarya'mitva is to enter the ectoplasmic or endoplasmic structure of others and thereby to know their pain and pleasures, their hopes, aspirations and longings and to guide them properly. It is somewhat like transmigration of the soul. Regarding this occult power, spiritual cult alone will not suffice — it requires the special grace of Parama Purusa. He usually does not give this power to sadhakas because if they do not possess universal love, it can be abused for personal gains. Baba explained that this power makes the mind so subtle that it can enter the intra- and inter-ectoplasmic mind stuff of every individual as well as the collective human society.
