Curriculum Vitae (CV)

What job i'm looking for? My positive points

Any kind of job to assist me while I am on my studies, my goal is to fund my self while persuing my degree (willing to evacuate from the university premises and do distant learning with UNISA). I am a hardworker willing to settle at any job as I also believe in my passion and patience. I have computer literacy skills acquired from the university of Limpopo as I was studying BEd, I believe with such a skill I could do some extra in the field. Apart from that, young as I am, energetic, fit for both physical and psychological dinensions of the field. My certification is only a matric certificate and no other validated skills as I am busy with my degree on education. If I may say again, I believe in my strenght, potential and capacity and feel so fit to fill at any occupation that is relevant for my self provided by the discribtion and document.
