

Buhle Kiviet

Curriculum Vitae (CV)

What job i'm looking for? My positive points

I am an individual with a curiosity to see what's behind the curtains after graduation and how the employment sector works. I next year (2023) I will graduate and the Nelson Mandela University for obtaining a Diploma in IT(Software Development).

Software development has always intrigued me as it's the reason I am even able to send this document to the relevant person. I am eager to put the skills I've learned and my passion for computing to the test in a real world situation with many more minds like mine to learn from.

One important skill I am proud to have sharpened is my problem solving skill that is continuously being called upon when developing any software.

I wish to be hired as I can assure you that even though the milestone of achieving a diploma has been achieved my curiosity for knowledge still has me up at night.

Preferred occupation Developers
IT, computing jobs

Preferred work location East London
Eastern Cape

Contacts and general information about me

Day of birth 1997-02-25 (28 years old)

Gender Male

Residential location East London
