

Roberto Groenewald

Curriculum Vitae (CV)

What job i'm looking for? My positive points

I completed N4,5,6 in electrical engineering at College of Cape Town. I also completed the Diploma in Electrical Engineering Technology at Central University of Technology, Bloemfontein, RSA. Previously, employers told me that I am under qualified. Currently, I am told that I am over qualified for a learnership / apprenticeship. I would like to obtain practical experience in my field of study. I am hardworking and eager to learn. I can both work in a team and in solo to achieve company objectives. I am willing to travel and walk the extra mile. I am of silent disposition but speak my mind when needed. I currently teach at Upington TVET College as a Junior lecturer on a contract basis until 31/12/2022. I do not have any other contractual obligations and can start immediately. I seek a chance to equipt myself and complete my practical part in the hope to become an excellent certified qualified electrical engineer. I would like to ease the critical skills shortage in our country and assit your company to reach your goals effectively and efficiently.
