Curriculum Vitae (CV)

What job i'm looking for? My positive points

I am very hard worker, like to get things done right, very good customer communication skills, I like to complete tasks. I feel you should be able to work good in a team but also be able to function on by yourself. I am aware that I mostly just have retail experience but I am eager to explore and learn about the rest of the pharmacy industry. My university told us that they were known for preparing us to be retail pharmacist, but I would like to go further and explore more options in this field. I am well aware that retail / sales representative of supplier / warehouse / insurance / hospital / etc. pharmacist , just to name a few, are slightly different but share the same knowledge and way your mind works. I am passionate about helping people and want to explore better ways I would be able to do that.
