## What job i'm looking for? My positive points

"I am looking for a job were I will be pushed and challenged, where my skills and experience will be put to good use and where I can collaborate with other like-minded professionals on projects that achieve positive things for our employer. We spend a lot of time at work, and I want that time to be put to good use for a company that wants to continually grow and be the best it can possibly be....

"I am looking for 4 things in my next job. Number one, a positive team to work in where everyone has a can-do attitude. Number two, a supportive manager who is prepared to listen to, and consider any ideas that I put forward. Number three, a diverse work environment where I can learn from other people, and number four, an inclusive company culture where there is equal opportunity for everyone."
