Curriculum Vitae (CV)

What job i'm looking for? My positive points

I am currently looking for any job in the legal field that will help me in getting experience in the legal field. Studying law came by no accident, it has been a passion of mine for as long as I remember. This course was treated as a jumping-off point, my passion for it lit the way for a bigger interest into the practical and research part of it. I dug in deeper by:

Researching on the various legal career opportunities; Working hard towards my LLB Degree;

Getting some work experience;

Being in leadership positions;

Finding fields of law that interest me; and Gaining some skills and competencies.

I am skilled in legal writing; research; SAP; public speaking; work ethics; professionalism; interpersonal skills; critical thinking; communication; working and dealing with different individuals; and problem solving. I work very well in a team, I have leadership skills, and I have an eye for detail, work well under pressure and open to learning more. I expect to grow my skill set to improve your quality, cost, and lead times, much as I have been doing during the course of my experience.
