Curriculum Vitae (CV)

What job i'm looking for? My positive points

I recently came across your job listing for the retail sales position. I believe that I could prove to be an excellent fit for this job for many reasons as I am good with numbers and kids because I am a mother too. I'm familiar with what it takes to be successful as a sales associate. I'm reliable and always willing to step up when shifts need to be covered. On my resume, you will find only the best qualifications that attest to this.

In my 5 years of high school I've learnt how to problem solve as I was a Mathematical literacy learner which is a subject that teaches you the core of problem solving. I was able to gain insight of how to problem solve. I am capable of showing customers how to choose the item that fit both their needs and their budget, which earned me a 30% repeat customer base over 5 years.

If after taking a look at my resume, you agree that I could be a good fit for your store, I would love to hear about what the next steps are. I am available to talk at your convenience and can be reached by phone or by email.

Sincerely,

Yonela Mnyazi
