What job i'm looking for? My positive points

Good day to whom it may concern

My name is Karabo Lekhela

I'm 21 years old and I'm up and coming as I'm currently studying Chemical Engineering at Damelin Part time and working at Calisto's as a waiter

The reason I'm applying is because I feel I have the opportunity to grow and to become an integral part of the team. I come with loads of knowledge and experience working as a waiter at Calisto's. Customer service is my bread and butter so keeping customers is my goal all the time. I can deal with irate customers and coupled with my good people skills it is a recipe for success instead of disaster for a change

I am a team player but I'm also able to take the bull by its horns and lead situations. Where I lack for in qualifications I make up for in experience in a busy environment and the chance given to me would not be taken for granted

The reason I'm leaving is because the job is unsustainable and it is not aligning with my interests at the moment.

Kind regards

Karabo
