Curriculum Vitae (CV)

What job i'm looking for? My positive points

After qualifying as a draughtsman, I realized that I have studied in the wrong direction and was more interested in the technical and IT field. I am an energetic peoples' person who does not mind starting at the bottom, working my way up and is prepared to prove myself. I have a proven track record in the technical, as well as, IT environment. When I do something, I always do it to the best of my ability or if I happen to struggle with a situation, I will never just lie down, I then take the task to work, as I'm driven by solving any challenge and if all else fails, I don't hesitate to ask for assistance. I love working under pressure due to deadlines and long working hours is a pre-requisite in the IT industry.
