## What job i'm looking for? My positive points

Good day

I am currently in a administrative position and for the past years call centre/systems administrator. Distribution and data admin, my positive points. Fast learner and although my years in age, I'm still capable to do more. Always present, if not then on leave. Look very well after myself and the job I do and being instructed to do. My references for previous years can definitely back my cv and what advantage I can be for any other company. Did a few Systems Administrative courses at Mastergrade IT and believe that I can grow in any position Administrative.

Hope my short introduction and honesty will allow me to be considered.

Kind regards

Julia De Bruyn
