Momelezi Nyeka

CURRICULUM VITAE

Name and surname : Momelezi Nyeka

Permanent Address : 2908 Gwayi street old crossroads Nyanga 7750

Mobile Number : 0784445391

E-mail Address : momelezinyeka3@gmail.com

PERSONAL DETAILS

Date of Birth : 27 July 1985

Place of Birth : Cape Town

Citizenship : South African

Identity Number : 8507275807085

Gender : Male

EDUCATIONAL QUALIFICATIONS

Name of institution : North-link collage

Name of Qualification : N5 Electrical Engineering

Subject Passed : Electrotechnics N5

: Industrial Electronics N5

: Logic System N5

: Mathematics N5

Date Qualification

attained : 2018-05-

Name of institution : Sikelela

Name of Qualification : Abet Level 4

Subject Passed : isiXhosa

: English

: Mathematical Literacy

: Life Orientation

: Ancillary Health Care

: Arts and Culture

Date Qualification

Attained : 2013 November

Name of institution : Silulo Ulutho Technologies

Name of Qualification : End User Computing

Subject Passed : Introduction to Computer

: Windows7

: Microsoft Word

: Microsoft Excel

: Microsoft Power Point

: Internet and Email

: Soft Skills

Date Qualification

Attained : 2014 December

Work Experience

Name of Organisation : Ontec System

Location : Western Cape, South Africa

Duration : Currently

Position : Junior electricity/water meter technician

Responsibilities and Skill

- Meter installations
- Meter auditing and reports
- Meter Configurations and Programming
- Manual meter reading on the meters that are not communicating with the system. I measure the billing data and profile data on site (ace pilot software)
- Automated meter reading at the office (ace pilot software)
- Site monitoring for communication status on each meter. (Support Studio and PNP Scada software)

□ Knowledge and skills

- Good communication skills: respect, sharing ideas and active listening and confidence.
- Customer Relations: professional approach, Handle customer complaints, Take the extra mile to engage customers and provide appropriate solutions and alternatives within the time limits; follow up to ensure resolution.
- AMR knowledge (Automated meter readings): collecting consumption and status data from water meter and energy metering devices and transferring that data to a central database for billing, troubleshooting, Installation, monitoring, and maintenance of AMR.
- Advanced understanding of electricity, specifically to kWh and KVA
- Basic knowledge of plumbing and fitting

- Good computer knowledge:
- Good Technical understanding to program meters.
- Conduct site inspection on electricity and water meters in accordance with maintenance schedule received.
- Proficiency in basic mathematics and conversion of measurements
- Investigate queries received from Client Services. Respond to the customer quickly and present a solution and verify that the problem is solved.

□ Respond to task request:

- Take readings when billing period commences.
- Submit readings for houses.
- Take readings for bulk meters.

Suspensions and Re-Instatements

- Deliver letters to Estates as per Suspension list received.
- Suspend service as per suspension list received.
- Reinstate services on receipt of a task from customer services.

Gender Male

Residential location Cape Town
Western Cape

Telephone number *Information is available only for registered users.*

I am industrious and hardworking person dedicated to delivering innovative solutions. I completed

N5 in electrical engineering studies. I am currently working for Ontec System in the smart technical

center team as a junior electricity meter technician. We develop systems and metering

technologies that meet the needs of the municipal environment, private sectors, end user

consumers and large utilities. Through this experience that I have obtained from the smart

technical center team, I developed the skills of operating with the engineering software's such as

(PNP SCADA, SUPORT STUDIO, ACEPILOT, ENEMEX, ACE 900, POWER BI and meter management dashboard).

I am working on huge projects and operations to monitor and manage meter equipment's. I

configure and troubleshoot electronic/meter equipment using software applications and engineering

tools, as well as processing of field audits results and draw up reports. I provide on-site technical

assistance to install meters and investigation on tempered meters using the short codes provided

and taking the manual readings from the meters that are not communicating to the system due

readers failures. I have also been trained to wire the smart meters in three phase and single phase
