

Mandisa Hlatshwayo

Curriculum Vitae (CV)

What job i'm looking for? My positive points

I am a final-year student at University of Witwatersrand, pursuing a Bachelor of Health Science. I want a part-time job to gain experience and to be work-ready. I have chosen the jobs I hope to get above, they might not be relevant to my career. However, I believe they will somehow open my eyes. I am a hard-working person, and I strive to do my best in every setting that I find myself at. In my degree, I have learned how to collaborate and communicate with other people from my teams. I also got an opportunity to solve complex challenges by initially having a holistic overview of them and then providing practical solutions that do not only address one problem but several problems. One of my courses requires us to be independent as it is self-directed learning. As a result, I have learned how to depend on myself, not on others. With these skills which I have gained over my degree, I believe I can excel in any job that I would do.
