What job i'm looking for? My positive points

I'm looking for a truck driver job opportunity I've been hunting for that job for almost 8 years now but I have never get a chance to prove myself that if can get the job I will definitely do my best and the company I'll be working for would appreciate my hard work,I always get the job that I I'm actually not into.but then it hard not take any kind of job since I have people depending on me,what I'm trying to say is I've been working in restaurant and bakeries,but I'm a hard worker and working under pressure isn't a problem I'm used to it and most of it all I don't mind working around people because I'm peoples person,so any kind of a job is also appreciated since I'm currently unemployed.thank you.
