

Leandra Ziyambi

Curriculum Vitae (CV)

What job i'm looking for? My positive points

My name is leandra ziyambi and I am 19 years old . I am a Zimbabwean by nationality but I have been staying here in south Africa since 2012. I completed my matric last year with good results . I had applied for the university of Johannesburg and wits for teaching and/or geology and was admitted in both universities but they required a study permit . I then went to Zimbabwe to apply for a study permit but got rejected due to insufficient funds they said that I do not have a bursary to fund my studies hence they can not hand me the permit . So I have been looking for a bursary ever since .

The purpose of this letter is to express my difficult experiences I have encountered and subsequently apply for a job as a teacher assistant at one of your institutions in your district . I am very passionate when it comes to teaching . In the year 2019 I started helping other learners in my school with mathematics and I proceeded helping until grade 12 . I have better communication skills and I can explain things clearer . I am Patient and easy to talk to which makes it easier for learners to ask me questions where they do not understand . I have developed a flexible mind over the years , by that I refer to seeing situations in different perspectives or in other people's eyes this allows me to detect the main problem that a learner experiences and I come up with a solution. I create scenarios to explain things that are considered difficult by learners to make it easier for the brain to grasp . Other than scenarios I also developed strategies and techniques to help learners to understand a subject. I believe in building a stronger foundation for better results and with that being said I would like to teach grade eights and nines so that they grow with better understanding to how things actually work and how things are done. I can also help the grade 12 since they are already at the finishing line . I experienced a lot of difficulties in my upbringing but I never gave up I am still pushing , working towards my dreams and by the same token I would like to serve as an encouragement to those who also have challenges in their lives .

I am fully aware of all the formalities and qualifications that I have to go through in order to qualify for this position but unfortunately I do not have access to them due to insufficient funds . If only I can get this opportunity , I will become an asset not only to your schools but to the rest of South Africa. It's the little changes that makes the biggest impact. I promise to abide by my words and do my absolute best to change your results for the better .

Preferred occupation

Teaching jobs

Preferred work location Gauteng
