

Bonginkosi Khumalo

Curriculum Vitae (CV)

What job i'm looking for? My positive points

I'm very interested in participating in the heavy industry particularly in the engineering sector.

I am semi skilled in motor mechanism although I haven't gone to college because I was in a technical school. Motor mechanism is something that I did the moment I matriculated.

One can say I am a bush mechanic if you will. Working in an environment like that of a mine isn't a problem as I'm used to strength requiring jobs. That's why I think I am great for this job.
