Curriculum Vitae (CV)

What job i'm looking for? My positive points

The job I'm looking for should be a job that fits my personality, which is being a problem solver, a creative thinker, a responsible person, honest, attentive, and hardworking, and the goals I'd have for that position which is to bring my positive attitude and team spirit into it knowing that I wouldn't work alone. As former student, which I've matriculated in 2023, coming out of a routined school life and out to the work life, I've always wanted to follow on building my work ethic earlier on and get back into studying my career.
