

# Nqobile Msibi

Curriculum Vitae (CV)

## What job i'm looking for? My positive points

As a data-driven professional skilled in data management, ETL processes, and warehousing techniques, I use Apache tools, Python, SQL, and careful processes to turn unprocessed data into useful business insights. With proficiency in data structures, database management, and Python programming, I can efficiently access, extract, transform, and load data into scalable pipelines from a variety of sources. Skilled in statistical analysis and data visualization with Power BI and Pandas, I extract meaningful insights from large, complicated datasets. I can create cloud-optimized data warehouses and maintain optimal database performance since I am well-versed in database technology. Committed to improving organizational intelligence with data, I showcase findings using compelling narratives and visual storytelling. I'm interested in using information to create value
