Curriculum Vitae (CV)

## What job i'm looking for? My positive points

Professional Data Entry Specialist / Data Analyst with one year's experience and extensive technical knowledge in programming, and database management and administration. I possess a strong foundation in data analysis and am proficient in utilizing key programming languages such as Python and R, alongside SQL for effective data manipulation and database administration. Detail-oriented with strong communication and problem-solving skills. My analytical skills are complemented by a keen ability to gather, clean, analyse, and present data, providing valuable insights to support informed decision-making. Committed to remaining apprised of all new and emerging technologies related to the Data Science ecosystem and ready to apply talents in computer programming and data analysis.

Preferred occupation                      Online data processor
