Curriculum Vitae (CV)

What job i'm looking for? My positive points

I have not come across too many individuals dedicated to doing better and with as much zeal for life as I have. Trying to out-do the previous day, and doing the best that I possibly can everyday is a value I firmly believe.

I'm extremely proficient in technology and technological processes. I respect set targets, not only do I honour them, I take them as a challenge, a stepping stone to unlocking my potential.

I deserve this job not only because I am better applicant, I deserve this job because consistency and perfection is an unending pursuit for me. I rise and and excell at every given opportunity. I would be honoured to add value to the company structure.
