

Cameron Mcknight

Curriculum Vitae (CV)

What job i'm looking for? My positive points

I am looking for a job that either requires skills in computing, sales, motivation, creative minds, logo design, emails, copywriting, AI, advertising, or debt collecting. My diverse skill set and enthusiasm for learning make me a valuable asset in various roles, and I am excited to apply my talents to make meaningful contributions to your team.

As an ambitious and tech-savvy individual, I bring a unique blend of skills and experiences to the table. At just 18 and still in grade 11, my passion for computing, software development, AI, and trading has driven me to accumulate significant hands-on experience in these areas. While I am awaiting my matric, my dedication to honing my skills and gaining practical experience sets me apart from my peers. Whether it's coding intricate algorithms, crafting AI solutions, or navigating the complexities of financial markets like forex trading, I thrive in challenging environments where my problem-solving abilities shine. Moreover, my knack for sales, particularly in e-commerce, adds another dimension to my skill set, showcasing my versatility and ability to adapt to various roles within a team. With a proactive attitude and a hunger for continuous learning, I am eager to contribute my expertise and drive innovation in any organization willing to take a chance on a young, driven talent like myself.

Preferred occupation	Salesman Sales jobs
Preferred work location	Johannesburg Gauteng

Contacts and general information about me

Computer knowledge

Proficient in a wide range of computing technologies, with hands-on experience in software development, AI, and trading platforms. Skilled in programming languages such as Python, Java, and C++, with a strong understanding of data structures and algorithms. Experienced in developing and deploying applications, including web development using HTML, CSS, and JavaScript. Familiarity with machine learning frameworks such as TensorFlow and scikit-learn, with practical experience in building and training models for various applications. Additionally, adept at utilizing trading software and platforms for market analysis and execution. Proficient in Microsoft Office Suite, including Word, Excel, and Sheets, with the ability to create and format documents, perform data analysis, and generate reports. Quick learner with a passion for staying updated on the latest advancements in technology and eager to apply this knowledge to solve complex problems and drive innovation.
