

Douglas Anderson

Curriculum Vitae (CV)

What job i'm looking for? My positive points

A highly skilled and exceptionally innovative geochemist, drilling engineer, and autodidact with extensive experience and sharp acumen in exploration geology, geological sampling, geochemistry, and drilling operations. Demonstrates a proven track record in developing advanced geotechnical techniques and managing complex projects, including drilling, geochemistry, geological and geochemical sampling, and knowledge and skills transfer, to achieve operational excellence. Recognized as an artificer in developing solutions to complex problems, and known for strong analytical and problem-solving skills, with a keen ability to innovate and optimize processes. Successfully led teams in various high-impact projects, showcasing versatility and leadership in dynamic environments. Notable achievements include introducing the unique Kymera drill bit to sub-Saharan Africa improving tool-face control and drilling efficiency, introducing drilling with casing improving efficiency, safety, and significantly improving drilling efficiency in oil and gas exploration and geothermal drilling in East Africa. Developed a training schedule and regimen for sonic drillers. Made key recommendations for modifying a sampling ship to expand into marine heavy minerals, precious metals, and phosphates marine exploration, keeping environmental best practices in mind
