Curriculum Vitae (CV)

What job i'm looking for? My positive points

I am looking for construction job or driver since I am experienced in both. I am currently a construction manager with a 4 years experience on the field and I'm excelling at it. I have supervisory skills, foreman skills and I am great MS PROJECT and MS OFFICE.

My ultimate goal is to make money for the company and ensure the safety of the workers.

I have been a transporter for a period of 1 year and 3 months. Other than casual works of transporting goods and people to different locations when hired for a specific period of time, I used to transport school kids.
