Curriculum Vitae (CV)

What job i'm looking for? My positive points

Any job that will allow me to be productive as I am creative and a hard-smart worker. I am done with matric and currently have no experiences but have been active in activities that took place at my home such as welding, domestic cleaning, cooking, driving and babysitting. I am yearning to learn more such that whatever task I'm given whether I have an experience on it or not I still give good results because I'm pretty much of a fast dedicated learner. I have completed Mathematics, Life Sciences, Physical Sciences, Computer Application Technology, English HL during my matric year and obtained a Diploma.
