Curriculum Vitae (CV)

What job i'm looking for? My positive points

I just matriculated which is why i dont have experience. I did do a part time and spar and gained experience there. I know theres numerous people applying for the same job with so much experience, but i personally dont think anyone are so eager to get a work or gain experience. I truly think that ill be a great candidate for the job, it truly does'nt matter what i do, i just want to work hard in helping myself and the company excel.
