### Computer knowledge

As a future teacher, computer knowledge is important to me because it helps with lesson planning, creating digital resources, and using online tools to support learning. I am comfortable using Microsoft Word, PowerPoint, and email, and I'm learning more about online teaching platforms like Google Classroom. I have basic computer knowledge. I can use Microsoft Word, Excel, and email, and I'm comfortable using point-of-sale systems or any software with training. I'm also quick to learn new systems and understand the importance of technology in improving work efficiency.

### Conferences, seminars

As an education student, I see conferences and seminars as important opportunities for professional growth. They allow me to learn from experts, stay up to date with the latest teaching methods, and connect with other educators. Attending such events also helps me reflect on my own teaching practice and find new ways to improve learner outcomes. Conferences and seminars help employees stay informed about new industry trends, customer service skills, and company policies. They also improve teamwork and communication by allowing staff to learn together and share ideas. I believe attending these events shows a willingness to grow and contribute more to the workplace.
