leadership,

team building qualities and logistics procedures. I am extremely impressed with company's approach to

strategy consulting, especially within the Business Development and Innovation practice areas. I believe

my academic background, business knowledge and industry experiences have provided me with the

credentials needed to thrive as an Associate.

I worked in logistics professional, primarily resolving strategic issues related to warehousing process

improvement. I gained solid research, analytical and problem solving skills while working in the warehouse. My background in generating innovative ideas and strategies to improve processes has provided me with a deeper understanding of multifaceted problems that companies encounter in their

daily operations. Moreover, because of my work experiences, I fully understand how important it is to have

great team dynamics in today's multi-disciplinary business environment.

My experience as a storeman operator has been extremely rewarding and productive. However, it is through strategy consulting that I can use my analytical aptitude and creative problem solving skills to

their fullest. I strongly believe that consulting is a discipline that will force me to view problems not only

from the client's standpoint but also from a marketplace, best practices and "think out of the box" point of

views.

I would appreciate the opportunity to interview with Company Name for the Associate position.
